MSFT	Microsoft Corp	$85,000.00	10.0%	$33,000.00

Key Review Items

> **[HIGH] Concentration review: AAPL** `concentration_single_holding`
>
> Apple Inc (AAPL) represents 22.0% of the portfolio, above the 20.0% single-holding review threshold. This may indicate concentration risk; consider reviewing position sizing with the client.

> **[HIGH] Risk tolerance alignment review** `risk_tolerance_mismatch`
>
> The client's stated risk tolerance is Conservative, but equities represent 62.0% of the portfolio, above the 60.0% review threshold for conservative profiles. This may indicate a mismatch between the portfolio and the client's risk profile; consider discussing whether the allocation profile remains aligned with the client's stated risk tolerance.

> **[MEDIUM] Sector concentration review: Technology** `concentration_sector`
>
> The Technology sector represents 40.0% of the portfolio, above the 35.0% sector review threshold. This may indicate sector concentration; consider evaluating diversification across sectors.

> **[INFO] Tax-related review consideration: BND** `tax_review_taxable_loss`
>
> Vanguard Total Bond Market ETF (BND) in a Taxable account shows an unrealized loss of $9,500.00. This may indicate a tax-related review consideration; consider evaluating it with the client and a qualified tax professional. This is a data observation, not tax, legal, or investment advice.

Advisor Talking Points

- Review position sizing for Apple Inc (AAPL), which represents 22.0% of portfolio value against the 20% review threshold.

- Review whether the 62.0% equity allocation remains consistent with the client's stated Conservative risk tolerance.
- Evaluate diversification across sectors: Technology represents 40.0% of portfolio value against the 35% review threshold.
- Consider a tax-related review of Vanguard Total Bond Market ETF (BND) in the Taxable account, which shows an unrealized loss of $9,500.00.

Client Discussion Questions

- How comfortable are you with the portion of the portfolio held in a single position?
- Has anything changed in your circumstances that we should reflect in your risk profile?
- How do you feel about the portfolio's current level of exposure to a single sector?
- Would you like to include your tax professional in a review of the taxable account positions?
- Have your goals or time horizon changed since our last review?

Follow-Up Items

- Schedule a position-sizing review for the concentrated holding(s).
- Revisit and re-document the client's risk tolerance questionnaire.
- Prepare a sector diversification comparison for the next meeting.
- Encourage review with a qualified tax professional before any tax-related decisions are considered.
- Document today's discussion and any decisions in the client file.

Evidence Table
